DETAILED ACTION

1. The amendment filed 12/29/09 has been entered. According to the Applicants, Claims 28, 30 and 31 have been canceled (Note: Claim 28 was listed as "Cancelled" in the index of claims but improperly included the entire claim text as if the claim was previously presented.) Claims 1-11, 13, 15, 16, 22-27, 29, 32 and 33 are pending in the application. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 112

2. Claims 29 and 32 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 29 has been amended to an independent claim incorporating all of the limitations of the previous parent claim however as amended, Claim 29 recites that "the nanosized filler comprises a mineral filler comprising asbestos, ground glass, kaolin, silica, calcium silicate...or a combination comprising at least one of the foregoing mineral fillers" at lines 19-23 but then recites that "**the mineral filler is mica** comprising phlogopite...or muscovite" in lines 28-29 (emphasis added.) Hence, the second limitation at lines 28-29 appears to contradict the first limitation at lines 19-23 considering the mica filler at lines 28-29 do not comprise the other previously cited fillers except the mica. Similarly, Claim 32 recites that the nanosized metal oxide has a particular formula in the last line of the claim but also recites earlier in the claim that the nanosize metal oxides comprise various other metal oxides that do not read upon the particular metal oxide formula. Therefore, one having ordinary skill in the art would not be reasonably apprised of the scope of the claimed invention and could not interpret the metes and bounds of the claim so as to understand how to avoid infringement.

Allowable Subject Matter

3. Claims 1-11, 13, 15, 16, 22-27 and 33 are allowed.

Response to Arguments

4. Applicant's arguments with respect to claims 29 and 32 have been considered but are moot in view of the new ground(s) of rejection.

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
